Wondering why PeopleKeep is showing up in your Zane Benefits content?

PeopleKeep was created to personalize benefits for small business. Zane Benefits and PeopleKeep worked in parallel for a short time, but as PeopleKeep grew, we decided they should function as one company. Zane Benefits is now part of PeopleKeep.
Our story

Offering traditional group benefits sucks. Why? They're too expensive, too complex, and too one-size-fits-all. PeopleKeep is a new way to offer benefits called personalized benefits. Most people believe benefits are the services a company offers, such as a health insurance plan or 401k. With personalized benefits, it's the opposite. Companies give people tax-free money to spend on the consumer services they find most valuable. It's as simple as wages. For small businesses that think offering traditional group benefits sucks, PeopleKeep is personalized benefits automation software that makes offering benefits simple, painless, and personal for everyone.

Today more than 3,000 companies use PeopleKeep to hire and keep their people across the United States. PeopleKeep is based in Salt Lake City, Utah. To learn more about PeopleKeep, visit www.peoplekeep.com.

INTRODUCTION

On March 23, 2010, President Obama signed the Patient Protection and Affordable Care Act (PPACA). The law put into place comprehensive health insurance reforms that have had, and will have, major impact on the health care industry for employers, individuals and families, insurance professionals, healthcare providers and financial planners.

The purpose of this ebook is to outline key changes in health care reform from 2010 to 2020. Each chapter outlines new programs and new insurance reforms by year.
CHAPTER 1: 2010

New Health Care Programs in 2010

- The temporary retiree reinsurance program took effect.
- The national Pre-existing Condition Insurance Pool (PCIP) was launched.
- The Small Business Tax Credit took effect.
- The Medicare members who reached the "donut hole" received a $250 rebate.

"PCIP provides a new health coverage option for people who have been without health coverage for at least 6 months and have a pre-existing condition or have been denied health coverage because of their health condition."

Insurance Reforms in 2010

- Lifetime dollar limits were disallowed on essential benefits.
- Restricted yearly limits were allowed on the dollar value of certain benefits.
- Coverage rescissions/cancellations were disallowed except for fraud or intentional misrepresentation.
- Cost-sharing obligations were disallowed for preventive services in network.
- Dependent coverage, if provided, was required up to age 26.
- Enhanced internal and external appeal processes and requirements took effect.
- Pre-existing condition exclusions were disallowed for enrollees (under 19 years of age).
CHAPTER 2: 2011

New Health Care Programs in 2011

- The Medicare members who reached the "donut hole" received a 50 percent discount on brand-name drugs.
- Primary care doctors and general surgeons practicing in underserved areas received a 10 percent Medicare bonus.
- The new voluntary long term care insurance program (CLASS) was suppose to become effective, but was not implemented.
Insurance Reforms in 2011

- The Medical Loss Ratio (MLR) rules took effect:
  - The minimum MLR for the Small Group or Individual market became 80%
  - The minimum MLR for the Large Group market became 85%
- The rate review rule requiring insurers of individual/small group plans to provide detailed information for any proposed increase equal to or greater than 10 percent, along with the reason for the proposed increase took effect.
- Medicare Advantage cost-sharing limits took effect.
- Medicare Advantage plans began restructuring of payments and froze 2011 payments at 2010 levels.
Other Insurance-Related Reforms in 2011

- The new rule excluding costs for over-the-counter drugs not prescribed by a doctor from being reimbursed through an HSA, FSA, or HRA took effect.
- The new rule requiring employers to report the value of health care benefits on employee W2 tax statements took effect and was optional for 2011.
CHAPTER 3: 2012

New Health Care Programs 2012

- New Accountable Care Organization (ACO) Medicare program allowing providers organized as accountable care organizations (ACOs) that meet quality thresholds to share in the cost savings they achieve for the Medicare program took effect.
- New procedures for screening, oversight, and reporting for providers and suppliers that participate in Medicare, Medicaid, and CHIP took effect.
- Reduced rebates paid to Medicare Advantage plans took effect.
- New annual fees on the pharmaceutical manufacturing sector took effect.
Insurance Reforms 2012

- New uniform Summary of Benefits and Coverage (SBC) requirement to help consumers compare health insurance coverage options took effect.
- New hospital value-based purchasing program in Medicare to pay hospitals based on performance on quality measures took effect.
- Reduced Medicare payments to hospitals to account for excess hospital readmissions took effect.
CHAPTER 4: 2013

New Health Care Programs 2013
